

The OneView® digital transformation roadmap

Turning hidden costs into a strategic asset

STEP 1 Identify and Eliminate

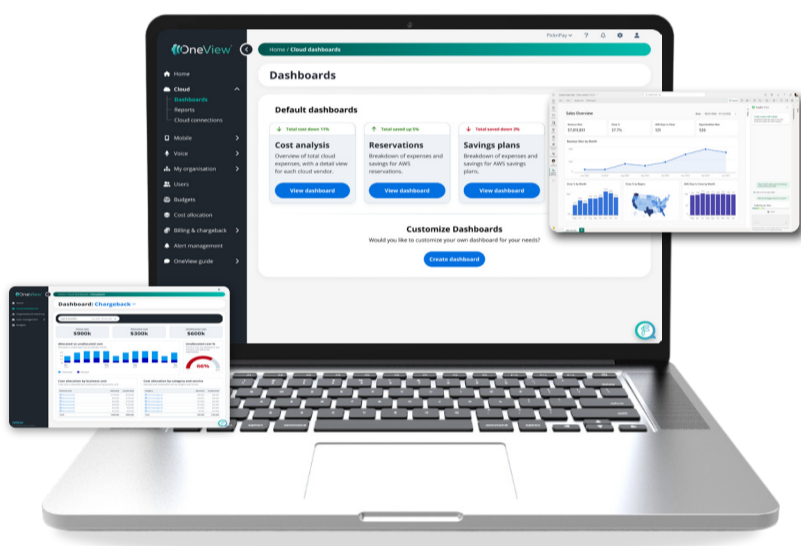

Objective: Uncover and eliminate hidden and redundant ICT costs.

Benefits:

- Free resources for strategic investments by removing waste.
- Ensure compliance and mitigate risk by identifying and addressing unaccounted costs.
- Improve IT ROI and profitability by optimising spending.

STEP 2 Customise and Generate

Objective: Gain full visibility into tech spending across departments, with customised reporting.

Benefits:

- Drive proactive decision-making and optimise IT investments aligned with business goals.
- Increase cross-functional accountability with transparent spending insights.
- Ensure compliance by monitoring spending patterns and aligning costs to priorities.

STEP 3 Automate and Collaborate

Objective: Automate data flows and foster collaboration across IT, finance, and procurement.

Benefits:

- Create a future-proof IT infrastructure that supports sustainable growth and operational efficiency.
- Reduce manual efforts, freeing IT resources for strategic work.
- Ensure tech spending aligns with organisational goals, enhancing transparency and collaboration.

STEP 4 Digitally Transform and Win

Objective: Leverage IT as a strategic asset, turning cost savings into opportunities for growth.

Benefits:

- Fund innovation and growth by converting ICT savings into high-impact projects.
- Elevate IT's role to a business enabler that aligns with enterprise-wide objectives.
- Support ongoing digital transformation and establish IT as a driver of value and innovation.
