So how do we get into the Azure Marketplace?

3 EASY STEPS WITH

Stactize® Licensing

Integration & Orchestration
Stactize® Publisher Portal

Market Enablement

Marketplace Listing
Co-Sell Ready

Partner Enablement

Microsoft Partnership
Commercial Marketplace Activation

What is the Azure Marketplace

An online store offering applications and services either built on or designed to integrate with Microsoft's Azure. Showcase virtual machine, solution templates, and SaaS products to over **4 million monthly active Azure customers** worldwide. Furthered by access to up to **90 000 Cloud Solution Providers and resellers** through Azure.

Stactize® Enablement is your first step towards gaining access to Microsoft enterprise sellers using the Azure Marketplace as a selling tool. Participate in the co-marketing opportunities to reach new customers in **140 geographies** around the globe.

Stactize® Enablement

Get started on your Azure Marketplace journey with the Partner and Market Enablement services offered by Stactize®. Ensuring you meet all the Microsoft requirements and dependencies to create listings on the Azure Marketplace. By completing Stactize® Enablement you are a registered Microsoft ISV Partner, and your product is listed as a 'Contact Us' IP Co-Sell ready offer. Stactize® License facilitates the technical dependencies to have a transactable offer on the marketplace.

Sell your Solution Through The Azure Marketplace.

Stactize® is a Go-to-Marketplace solution for ISVs looking to launch their SaaS into the Azure Marketplace. Stactize® Licensing operates as its own SaaS that is constantly running and communicating between the Azure Marketplace and your configured solution. Allowing your listing to become **transactable**, permitting top Azure customers worldwide the opportunity to purchase your product.

Stactize® Licensing

Stactize® Licensing includes comprehensive and customisable templates to satisfy all technical requirements necessary to sell through Microsoft. This incorporates the landing page, fulfilment APIs, operations APIs, and webhooks to drive subscription activation, usage, updates, and cancellation. Stactize® also provides many other value added services including the **Stactize Publisher Portal** to manage your cloud marketplace presence.
